FAQ

1. What is the minimum required space for an indoor playground?

The indoor playgrounds are designed around your space and budget without compromising on quality. A minimum space of **3.5m width x 4m length x 2.2m height** is recommended, plus the safety zone, at least 0.5m on the sides of the soft play.

2. What are the age groups allowed?

0-3 years; 3-8 years; 3-12 years

3. What is the maximum allowed weight?

Maximum 45 kg per user.

4. Where are the soft play manufactured?

Because we are parents and we know what it means to take care of children, we use 100% high-quality materials of European origin.

5. What is the delivery time?

30 working days, from the moment of placing the order, depending on the complexity of the arrangement.

6. Is the installation included in the purchase price?

No. Installation is not included in the price. But Waterboyz can provide authorized installation.

7. What is the offered warranty ?

- **10 years** warranty (with the possibility of extending the warranty up to **15 years**) for the metal structure
- **5 years** for the panels, which represent on average 80% of the entire structure of a soft play
- the plastic elements have a **5 year** warranty, being of superior quality
- activities inside soft play such as bridges and PVC covered sponge obstacles have **24 months** warranty. Our stock is constantly renewed, so these parts can be replaced quickly, being easy to disassemble/install

All playground accessories are accompanied by instructions, EN 1176 certificate and all necessary information for assembly.

8. Is the assistance, 3D design and business plan free?

We provide consultancy regarding the design and choice of games that will be part of the soft play structure. You can choose: ball pool, slide, obstacle courses, tunnels, sponge ball cannons, zip line, basketball hoop, pods, tic tac toe game, climbing wall, horizontal, vertical obstacles, bridges, giant balls and others.

What is the quality of indoor playgrounds at Waterboyz?

The Waterboyz prefabricated panel system

The panel system is pre-fabricated, thus eliminating human error. The panels come assembled and are ready to be mounted. The system contains:

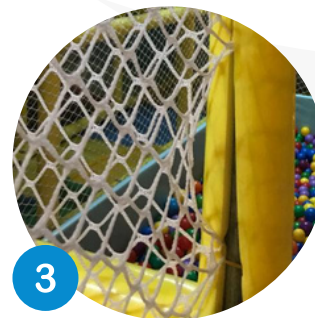

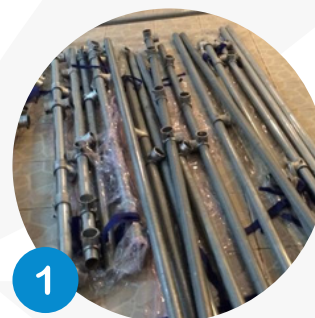

- a metal frame that is factory welded
- net and PVC-coated sponge with hot-glued textile insertion covers the metal structure
- **EN 1176 certification**
- **authorized installation**

Bar-by-bar system (Chinese style)

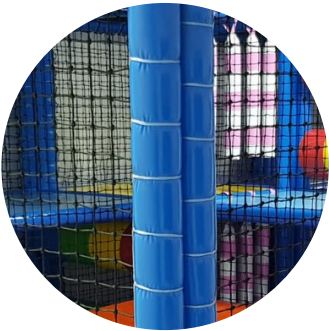

The bar-by-bar system is manually clamped, there is a possibility of human error:

- the pipes are manually connected and bolted
- the resulting metal structure, is manually dressed with mesh and PVC layer sponges without textile insertion
- **without EN 1176 certification**
- **impossible to obtain authorized installation**

What is the quality of indoor playgrounds at Waterboyz?

The Waterboyz prefabricated panel system

- prefabricated fastening system
- we do not use plastic clamps

- square mesh net
- perfectly tensioned mesh, from the factory

- perfect factory finishes and joins

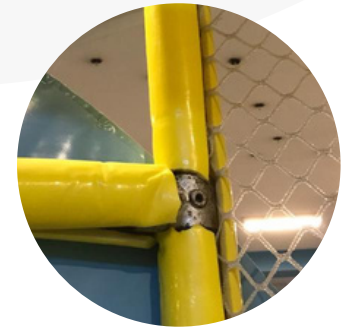

Bar-by-bar system (Chinese style)

- more than 1000 plastic clamps are used to hold the sponge and the net
- the plastic clamps are dangerous for children, they can cause injuries

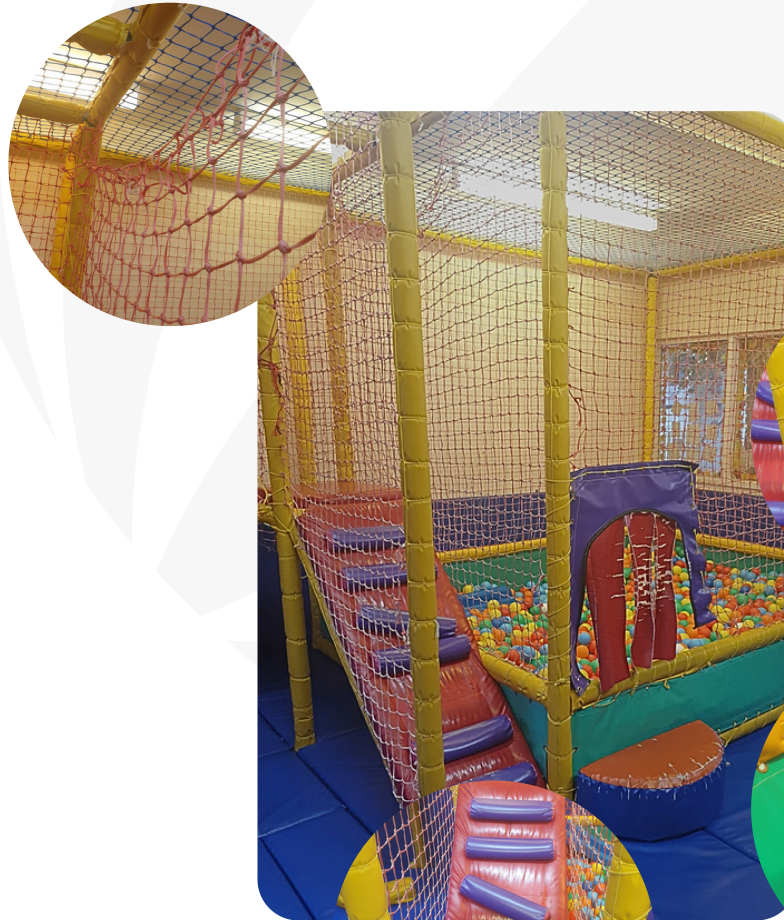

- rhombus mesh net
- poor quality mesh
- manually tensioned mesh, with the risk of quickly losing tension

- poor quality finishes and joints increase the risk of injury

Problems encountered in indoor playgrounds of the bar-by-bar system

Bar-by-bar system (Chinese style)

PREFABRICATED PANEL SYSTEM (WATERBOYZ) VS BAR-BY-BAR SYSTEM (CHINESE STYLE)

INSTALLATION

PANEL SYSTEM

Delivery: 30 working days

Installation: 1 day

Prefabricated panel system

PVC bonded by thermobonding

Robotic welded metal frame
(from factory)

The PVC has a textile insertion, it
doesn't come off, it doesn't crack

Factory fitted mesh, does not lose
its firmness

BAR-BY-BAR SYSTEM

Delivery: up to 45 working days

Installation: 5 days

Bar-by-bar system, manual

PVC clamped

Hand assembled metal frame
through pipes and bolts

PVC without textile insertion, it
cracks, it peels off

Hand-mounted net, loses its
firmness

CERTIFICATION

PANEL SYSTEM

Authorized installation

EN 1176 Certification

Premium flame retardant
materials

BAR-BY-BAR SYSTEM

Impossible to obtain authorized
installation

No EN 1176 certification

Poor quality flame retardant
materials
